UNAUDITED RESULTS FOR THE QUARTER ENDED 31 MARCH 2024

Introduction

Dear Shareholders,

We hereby present the unaudited quarterly results of Tanga Cement Public Limited Company ("Tanga Cement" or the "Company") and its subsidiary (together, the "Group") for the quarter ended 31st March 2024.

Due the escalating competitive dynamics prevalent in the industry, the inadequate electricity provisioning, and the scarcity of major foreign currencies like US Dollars and Euros in the money market, the operational performance of the group has taken an unfavourable turn compared to the corresponding period in the prior year's first quarter. The Financial and Operational Overview below provides a comprehensive overview of the group's performance.

We affirm our commitment to all stakeholders through our high-quality cement and clinker, and our contribution towards the sustainable growth and development of Tanzania, a demonstration of our brand - "Strength Within".

The company has deployed the highest standards of health and safety protocols across all its operations and continues to enforce safety at the workplace to protect our employees and contractors having achieved 6.01 million continuous injury free hours up to 31 March 2024.

Macro-economic Overview

The Group's growth relies on the demand for cement in the Tanzanian construction industry, bolstered by improved economic performance. The construction sector growth is set to grow by 8% in 2024 whereas the GDP is expected to grow by an average of 5.1% (source: Fitch Solutions). Despite this expected growth, there was a decline in cement demand during the first quarter of 2024 leading to a decrease in sales volume. This decline can be attributed to excessive heavy rainfalls and a slight increase in the inflation rate to 3.9% (compared to 3.0% in Q4 2023) which reduced consumers' purchasing power. However, the Group is optimistic about the positive impact of Government's Development Vision 2025 program on infrastructure development, expecting an increased momentum during the remainder of 2024.

Financial and Operational Overview

In the first quarter of 2024 the company experienced a 27% decrease in sales revenue, totalling TZS 36.9 billion compared to TZS 50.8 billion in Q1 2023. Despite this revenue decline, the group achieved a 19% increase in gross margin. This increase can be primarily attributed to cost efficiency initiatives implemented by the management, resulting in lower maintenance and operational expenses.

The Group's financial performance in the first quarter of 2024 showed a loss before tax of TZS 45.5 billion, compared to a loss of TZS 8.1 billion for the same period in the prior year. The pre-tax loss was predominantly impacted by optimisation costs, as well as interest expenses on term loans and adverse foreign exchange fluctuations driven by the weakening Tanzanian Shilling against the US Dollar. Cash generated from trading activities decreased by 767%, attributed to increased inventory balances and payments of one-third for objections to tax assessments (as procedurally required by law). However, net cash flows from financing activities increased significantly due to proceeds from additional shortterm working capital facilities. Despite these challenges, the Group remains committed to its sales, logistics, and cost optimisation initiatives, maintaining a positive outlook for 2024 amidst a competitive landscape and continued global geopolitical unrest.

Dividend

The company did not declare an interim dividend to shareholders in 2024 to remain prudent with available cash resources in order to remain sustainable through the global economic uncertainties and the high fuel prices coupled with pronounced scarcity of major foreign currencies affecting the local economy. The board has decided to continue committing available cash generated to operational commitments.

Proposed acquisition by Scancem International DA

Shareholders are reminded of the announcement on 17 November 2023 by Scancem International DA regarding the finalisation of the acquisition of 68.33% of the shares in Tanga Cement PLC from Afrisam Mauritius Investment Holdings Limited with effect from 27 November 2023.

Tanga Cement remains grateful to its staff for their passion and dedication to the company, and to its customers for their belief in the Simba Cement brand, as the company works to achieve its short- and long-term growth strategy.

With Tanzania remaining a significant player in the East African construction market, cement output is anticipated to increase and Tanga Cement will take advantage of the growth opportunities in the regional market.

For and on behalf of the Board

Hakan Gurdal

Chairman of the Board
